SUMMARY

Strategic Full Stack Developer with 3+ years of experience crafting innovative digital solutions. Proven track record in rapid development, performance optimization, and translating design concepts into functional applications. Combines technical precision with business acumen to deliver exceptional user experiences that consistently exceed client expectations.

EXPERIENCE

Frontend Developer

BuidlerDAO

Nov '24 — Present

Singapore (Remote)

- Specialized in Telegram web apps and mini-apps development. Created multiple websites with rapid turnaround—completing one in just 3 days from Figma designs. Developed a reusable component NPM package and engineered Node.js APIs for DOM-to-image conversion, optimizing database storage and enhancing performance. Created browser extension and its parent application in a strict deadline.

Software Developer

Pandora Web Studios

Aug '24 — Oct '24

India (Remote)

- Developed E-Commerce, service-based applications, and SaaS products, including CMS and E Mail Marketing platforms. Implemented ML-based recommendation systems and optimized solutions using Next.js, Node.js, WordPress, and Django. Used skills to develop an app in React Native

Software Developer

Web Idea Solution LLP

Apr '24 — Jul '24

India

- Enhanced a Django-based application, improving stability and developing one-on-one and group chat functionality. Contributed to software for hotel bookings promoting offbeat tourism and a virtual education platform serving students to professionals.

Software Developer

Raneso

Feb '23 — Mar '24

India

- Developed dynamic web applications. Implemented Django authentication, RESTful APIs, and MySQL database management with custom SQL queries. Created WebSocket chat functionality, email notifications, and CSV data processing.

Software Developer

DND Furnaces

Jul '20 — Aug '21

India

- Began web development journey, creating APIs with Django and building web components in React.js. Developed data-driven web applications, enhancing functionality and user experience.

Python and ML Trainer

Skilligence

Jan '20 — Present

India

- I've been teaching Python and machine learning, helping more than 450 students across 25 batches turn their coding dreams into careers. Collaborated with them to build projects that gave a boost to their career.

EDUCATION

Bachelor of Computer Applications in Data Science, Arka Jain University (GPA: 9)

Jan '20 — Jan '23

Jamshedpur, India
