Experience

Frontend Developer, BuidlerDao [Nov 2024 – Present]

➢ Specialized in Telegram web apps and miniapps development. Created multiple websites with rapid turnaround—completing one in just 3 days from Figma designs. Developed a reusable component NPM package and engineered Node.js APIs for DOM-to-image conversion, optimizing database storage and enhancing performance.

Software Developer, Pandora Web Studios [Aug 2024 – Oct 2024]

➢ Developed E-Commerce, service-based applications, and SaaS products, including CMS and E-Mail Marketing platforms. Implemented ML-based recommendation systems and optimized solutions using Next.js, Node.js, WordPress, and Django. Used skills to develop an app in React Native

Software Developer, Web Idea Solution LLP [April 2024 – July 2024]

➢ Enhanced a Django-based application, improving stability and developing one-on-one and group chat functionality. Contributed to software for hotel bookings promoting offbeat tourism and a virtual education platform serving students to professionals.

Software Developer, Raneso [Feb 2023 – March 2024]

➢ Developed dynamic web applications. Implemented Django authentication, RESTful APIs, and MySQL database management with custom SQL queries. Created WebSocket chat functionality, email notifications, and CSV data processing.

Software Developer, DND Furnaces [July 2020 – Aug 2021]

➢ Began web development journey, creating APIs with Django and building web components in React.js. Developed data-driven web applications, enhancing functionality and user experience.

Python and ML Trainer, Skilligence [2020– Present]

Skills

- Python • Django • Flask • Machine Learning (Basics) • NumPy • Pandas • MySQL • MongoDB
- ReactJS •React Native • Next JS • Redux • Tailwind • Jupyter • HTML5 • JavaScript • WordPress
- CSS 3 • Bootstrap

Education

Bachelor of Computer Applications, Arka Jain University [2020 – 2023] Data **Science (Specialization)**

Professional Summary:
Strategic Full Stack Developer with 3+ years of experience crafting innovative digital solutions. Proven track record in rapid development, performance optimization, and translating design concepts into functional applications. Combines technical precision with business acumen to deliver exceptional user experiences that consistently exceed client expectations.
